WORK EXPERIENCE

02.2025 – present

Associate Animator @ Technicolor Games

Bangalore, India · Part of TransPerfect

Announced AAA Title

- Create cinematic facial performances using a muscle-based FACS facial animation pipeline.
- Refine lip-sync, dialogue delivery, and facial expressions to achieve realistic character performances.
- Polish motion capture facial data to maintain natural performance fidelity and emotional nuance.
- Collaborate closely with animation teams within a high-end AAA production pipeline.
- Utilise proprietary tools and workflows to support animation iteration, review, and implementation.

NBA 2K26 / NBA 2K27

- Created AAA-standard body animations — cinematic sequences, camera-based and 360° all-angle shots. □
- Motion capture cleanup and technical animation polish: foot sliding fixes, jitter cleanup, prop alignment.
- Worked with proprietary pipelines and version control for animation iteration management.
- Collaborative team player in a fast-paced, quota-driven production environment.

- Autodesk Maya
- MotionBuilder
- Unreal Engine
- Mo-cap cleanup
- FACS
- Facial Animation

EDUCATION

2019 – 2022

Bachelor of Arts (Honours) in Animation

University of Derby – England

- Strong foundation in body mechanics, locomotion, character performance and production pipelines.

TECHNICAL SKILLS

3+ years

Autodesk Maya

- Character & Creature Animation
- Mo-cap cleanup / Facial Animation
- Scripting with Python and MEL

1+ year

Autodesk MotionBuilder

- Mo-cap cleanup & hand-keyed prop animation
- Character retargeting and Story Tool workflows
- Locomotion polish (stride, loops, transitions)

1+ year

Unreal Engine

- Animation Blueprint, 3C implementation, cinematic integration
